HARD SKILLS

LANGUAGE SKILLS
English language C1

TOOLS & TECHNOLOGIES
Full-Stack Development
React, Node.js, Express, MongoDB

WordPress Development
Custom Themes, Plugins, SEO

C Programming & Systems Fundamentals
Docker, AWS, Google Cloud

API Integration, REST
Postman

AI Tools
OpenAI, HuggingFace, Claude

Microsoft Office

SOFT SKILLS
analytical skills
communication skills
presentation skills
attention to detail
collaboration
creativity

CERTIFICATES
JavaScript, React.js,
Coursera

Python (Scripting & Automation),
Codecademy

MHTML & CSS,
Udemy

Node.js & REST APIs,
YouTube (Project-based learning)

Agile Methodologies,
LinkedIn Learning

Git & Version Control,
Self-Learning (Hands-on GitHub projects)

SQL Databases,
Pluralsight

WORK EXPERIENCE

SOFTWARE ENGINEER (FREELANCER)
Upwork
Budapest, Hungary (April 2021 - July 2025)
- Built and deployed full-stack web applications and WordPress sites for clients across various industries
- Improved site performance by optimizing caching, images, and database queries
- Managed complete development cycles from requirements to deployment
- Worked directly with clients to translate business needs into technical solutions
- Consistently delivered projects ahead of schedule with minimal revisions

FRONTEND ENGINEER
Pixel Stack Lab
Lagos, Nigeria (January 2023 - December 2023)
- Built high-quality React/TypeScript applications and responsive UIs from Figma designs
- Created reusable, accessible UI components with Tailwind CSS and Radix UI
- Integrated REST APIs with Axios and improved data handling using React Query
- Implemented authentication flows and protected routing with React Router
- Deployed applications to Vercel/Netlify and collaborated through GitHub and Agile sprints

SOFTWARE ENGINEER INTERN
Bluewave Software
Lagos, Nigeria (November 2021 - June 2022)
- Completed a software engineering training program focused on JavaScript, React, and clean code
- Built internal tools and mini-projects under senior engineer guidance
- Integrated REST APIs and contributed to scalable component architectures
- Improved team workflows with Git branching, pull requests, and code reviews
- Participated in Agile sprints, supporting planning, reviews, and delivery

ACADEMIC BACKGROUND

Bachelor's in Computer Science
University of Nyíregyháza
Nyíregyháza, Hungary (September 2024 - June 2027)
- Focusing on software development, algorithms, and web technologies
- Gaining practical experience in programming, databases, and system design through projects and coursework
- Applying problem-solving and analytical skills in coding challenges and team assignments
- Participating in coding clubs and project-based learning activities
